FANCY LEAVED CALADIUMS

See illustration on other side

The most fascinating and most beautiful of all brightly colored foliage plants. As a hot weather foliage plant, the fancy leaved caladium is in a class by itself. The leaves are beautifully colored and often reach a diameter of 18 inches or more.

We have a wide selection of brilliantly colored varieties. Some are almost pure white with green ribs, some are almost pure pink, some are red and green, and others contain many shades and hues. Exotic is the word that best describes their exquisite beauty.

They may be grown in pots as house plants, in window boxes, or out of doors in either sun or shade.

Caladiums are easy to grow; a direction sheet giving instructions in detail is enclosed with every order.
